Select your degree choices. Depending on what you selected, you can search through the pull-down menu and choose your favorite major as “Priority 1”. If your requested major does not appear in the menu, it may be that the application deadlines have passed for the following semester, or the program is not offered for the next term.

After you have made your first selection, you can also select alternate major choices as “Priority 2” and “Priority 3”.

Then, select the highest level of education you have achieved before starting your program at MUI. Typically, this is the high school for undergraduate programs. Do not select the level of education you plan to pursue at MUI.

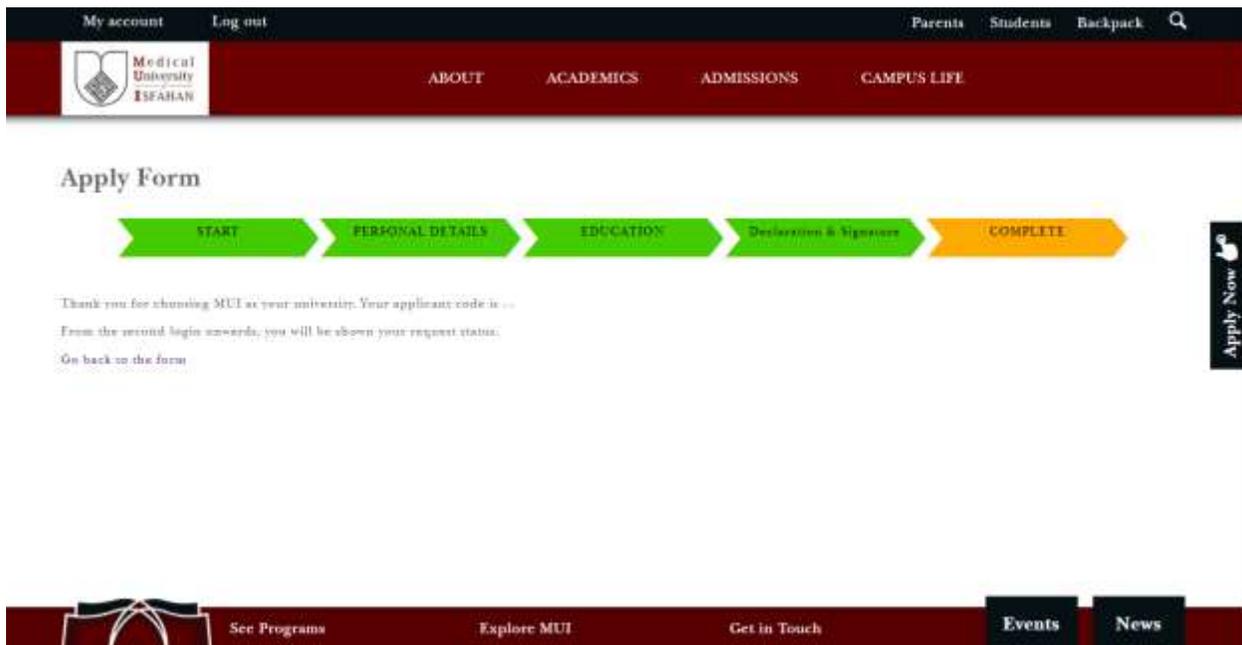

After that, send any available documents we need. It is important to complete all the sections correctly. If incorrect, the review of your application may be delayed, and we won't be able to process your application until we have received everything we need.

So if your documents are not ready to upload, you should save and exit the web form. Log in to your account when you do have the needed documentation and provide the fields yet to be filled.

5. Submit the form

Once you have completed the application form correctly, click on the “Submit” button. Following successful submission, you should receive a code as proof that you are an applicant, and your application has been received. Please note that only submitted applications will be processed.

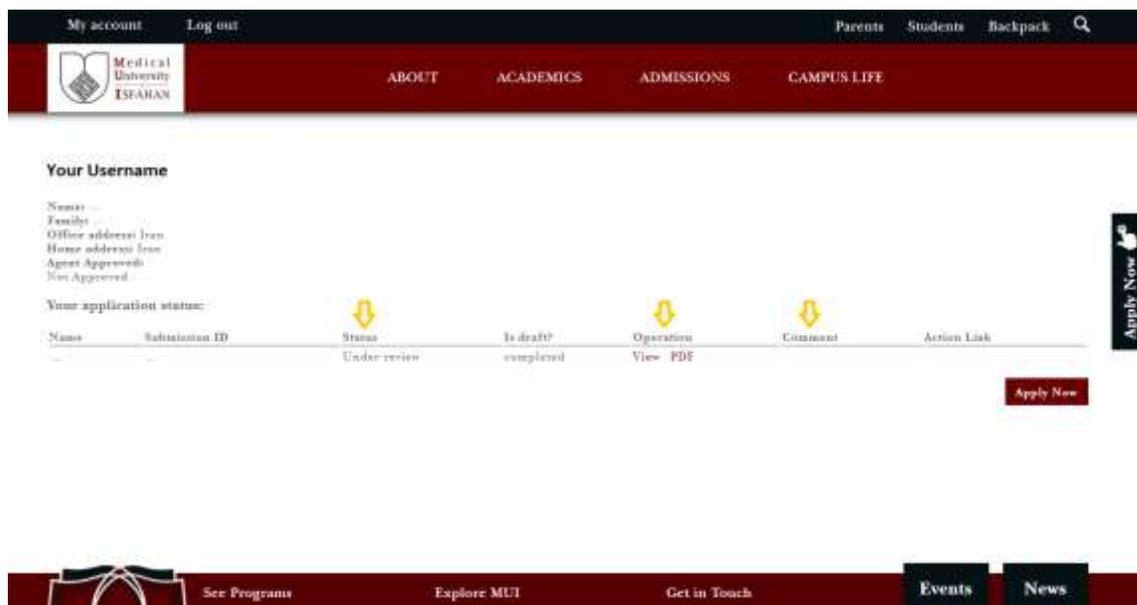

6. Wait for the result

The last step in applying is waiting for an answer; You will be informed about the result soon. In case any part of your application is incomplete, the admission office will consider your application “incomplete” and will not process it any further and will inform you with the list of missing document. Therefore, once you have successfully uploaded your documents you will need to check your application status regularly by logging into your account.

However, if your status is changed you will be informed via Email. If there is an issue with a document you uploaded, you will see a message and will have to upload a new document. You must resubmit the document as soon as possible to avoid jeopardizing the review of your application. When a decision has been made on your file, document uploading will be more restricted.

If you realize that there is a mistake on your application after you've submitted it, contact international.edu@mui.ac.ir. We will make the necessary change – please do not submit a new application with a new e-mail address as it will be a negative point for your admission.

It is important to check your e-mail regularly (including your junk/spam mail folder), as we will send updates on the status of your application, invitation to interview, and your admission letter to the address you have provided.
