- After the first time you log in Sama System, the system automatically asks you to enter your email address.

Note: If you enter a valid email, you can log in to Navid System with the login key and registered email.

- Without a Sama account, you are still able to enter Navid with username and password. You can ask the university IT staff about username and password.

↘ Enter your username and password, then you can access to your account for courses and educational works.

2 **Main Parts**

In the main page, there are two sections for current and previous courses.

- Current courses cover what you need to learn in your semester.

- The previous courses have been studied in the past.

When the green button "**View**" is activated, the course is ready.

6

↳ At the top of the page, you see each course syllabus. It gives you an insight into the subjects and evaluation. Notifications inform you about changes and updates.

Assignments

In Navid System, you can send messages to your instructor(s).

Also, you can submit your assignment if the deadline is passed.

However, your instructor(s) will notice the deadline. In this case,

you have submitted this assignment with delay. Don't waste time.

We kindly urge you to hand in your assignments on time! ☺

6 Discussion Group

You can participate in class discussions. To support your arguments or describe your idea, you can also attach a file.

Contents ①   **Assignments**   **Exams**   **Discussions**   **Classes**   **Messages**

Discussion

To show your answer in discussions, you may to know two things:

- o Normally, teaching team decide and approve your answers.
- o If the instructor(s) gives you permission, your answer display immediately.
